Energy Economics

Index to Volume 16
January, April, July, October 1994

Articles – titles

Electricity supply and demand, pricing

Electricity consumption in manufactured housing, *Sanford V Berg and Christopher Taylor*, 16.1, 54–62

Electricity load and temperature: issues in dynamic specification, *John Peirson and Andrew Henley*, 16.4, 235–243

Export of Norweigian hydropower under a common European regime of environmental taxes, *Eirik Schrøder Amundsen, Jørgen Bjørndalen and Heine Rasmussen*, 16.4, 271–280

Forecasting nuclear power supply with Bayesian autoregression, *Roderick Beck and John L Solow*, 16.3, 185–192

The impact of measurement error in the data on estimates of the argicultural demand for electricity in the USA, *Noel D Uri*, 16.2, 121–131

Investment in competitive electricity: scope for incentive contracts, *A Kumar David and Kwok-po Wong*, 16.1, 27–35

On the unprofitability of utility demand-side conservation programmes, *Franz Wirl*, 16.1, 46–53

Energy demand and energy efficiency

Accounting for technical progress in aggregate energy demand, *Clifton T Jones*, 16.4, 245–252

Decomposition of industrial energy consumption: some methodological and application issues, *B W Ang and S Y Lee*, 16.2, 83–92

Decomposition of industrial energy consumption: the energy intensity approach, *B W Ang*, 16.3, 163–174

An empirical analysis of gasoline demand in Denmark using cointegration techniques, *Jan Bentzen*, 16.2, 139–143

The impact of measurement error in the data on estimates of the agricultural demand for electricity in the USA, *Noel D Uri*, 16.2, 121–131

Lifecycle analysis of gasoline expenditure patterns, *Lorna A Greening and Hann Tarn Jeng*, 16.3, 217–228

On the unprofitability of utility demand-side conservation programmes, *Franz Wirl*, 16.1, 46–53

Price, quality and regulation: an analysis of price capping and the reliability of electricity supply, *Rob Fraser*, 16.3, 175–183

Productivity changes in the Gas and Fuel Corporation of Victoria, *Ahmed Rushdi*, 16.1, 36–45

Sources of change in industrial electricity use in the Taiwan economy, 1976–86, *Chia-Yon Chen and Rong-Hwa Wu*, 16.2, 115–120

Using electricity data to measure capital utilization, *Dominique Anxo and Thomas Sterner*, 16.1, 63–74

Energy – economy interactions

Accounting for technical progress in aggregate energy demand, *Clifton T Jones*, 16.4, 245–252

A capacity growth input-output model, *E W Henry*, 16.3, 193–203

Capital-energy substitution and the multi-level CES production function, *Kuo-Ping Chang*, 16.1, 22–26

Decomposition of industrial energy consumption: some methodological and application issues, *B W Ang and S Y Lee*, 16.2, 83–92

Decomposition of industrial energy consumption: the energy intensity approach, *B W Ang*, 16.3, 163–174

The effects of energy taxes on the Kenyan economy: a CGE analysis, *Haji Hatibu Haji Semboja*, 16.3, 205–215

Oil production and macroeconomic adjustment in the Indonesian economy, *Charles Harvie and Atifah Thaha*, 16.4, 253–270

Quasi-experimental taxation elasticities of US gasoline demand, *Rajeev K Goel*, 16.2, 133–137

The relation between marginal product and price in US energy markets: implications for climate change policy, *Robert K Kaufmann*, 16.2, 145–158

Sources of change in industrial electricity use in the Taiwan economy, 1976–86, *Chia-Yon Chen and Rong-Hwa Wu*, 16.2, 115–120

Energy and environment

Export of Norweigian hydropower under a common European regime of environmental taxes, *Eirik Schrøder Amundsen, Jørgen Bjørndalen and Heine Rasmussen*, 16.4, 271–280

The relation between marginal product and price in US energy markets: implications for climate change policy, *Robert K Kaufmann*, 16.2, 145–158

Energy modelling

Accounting for technical progress in aggregate energy demand, *Clifton T Jones*, 16.4, 245–252

Behaviour of non-renewable natural resource firms under uncertainty: optimizing or *ad hoc*, *Michael J Mueller*, 16.1, 9–21

A capacity growth input–output model, *E W Henry*, 16.3, 193–203

Capital–energy substitution and the multi-level CES production function, *Kuo-Ping Chang*, 16.1, 22–26

A cointegration analysis of petroleum futures prices, *Apostolis Serletis*, 16.2, 93–97

Decomposition of industrial energy consumption: some methodological and application issues, *B W Ang and S Y Lee*, 16.2, 83–92

Decomposition of industrial energy consumption: the energy intensity approach, *B W Ang*, 16.3, 163–174

Electricity consumption in manufactured housing, *Sanford V Berg and Christopher Taylor*, 16.1, 54–62

Electricity load and temperature: issues in dynamic specification, *John Peirson and Andrew Henley*, 16.4, 235–243

An empirical analysis of gasoline demand in Denmark using cointegration techniques, *Jan Bentzen*, 16.2, 139–143

Export of Norweigian hydropower under a common European regime of environmental taxes, *Eirik Schrøder Amundsen, Jørgen Bjørndalen and Heine Rasmussen*, 16.4, 271–280

Forecasting nuclear power supply with Bayesian autoregression, *Roderick Beck and John L Solow*, 16.3, 185–192

Unbiasedness and time varying risk premia in the crude oil futures market, *Imad A Moosa and Nabeel E Al-Loughani*, 16.2, 99–105

Using electricity data to measure capital utilization, *Dominique Anxo and Thomas Sterner*, 16.1, 63–74

Energy pricing

A cointegration analysis of petroleum future prices, *Apostolis Serletis*, 16.2, 93–97

The effects of energy taxes on the Kenyan economy: a CGE analysis, *Haji Hatibu Haji Semboja*, 16.3, 205–215

Export of Norweigian hydropower under a common European regime of environmental taxes, *Eirik Schrøder Amundsen, Jørgen Bjørndalen and Heine Rasmussen*, 16.4, 271–280

The nature of OPEC and oil price changes, *D P T Young*, 16.2, 107–114

Price, quality and regulation: an analysis of price capping and the reliability of electricity supply, *Rob Fraser*, 16.3, 175–183

Quasi-experimental taxation elasticities of US gasoline demand, *Rajeev K Goel*, 16.2, 133–137

The relation between marginal product and price in US energy markets: implications for climate change policy, *Robert K Kaufmann*, 16.2, 145–158

Oil and gas supply demand

Behaviour of non-renewable natural resource firms under uncertainty: optimizing or *ad hoc*, *Michael J Mueller*, 16.1, 9–21
A cointegration analysis of petroleum futures prices, *Apostolis Serletis*, 16.2, 93–97
An empirical analysis of gasoline demand in Denmark using cointegration techniques, *Jan Bentzen*, 16.2, 139–143
Escaping the tolerance trap: implications of rigidity in OPEC's output adjustment mechanism, *Shawkat Hammoudeh and Vibhas Madan*, 16.1, 3–8
Lifecycle analysis of gasoline expenditure patterns, *Lorna A Greening and Hann Tarn Jeng*, 16.3, 217–228
The nature of OPEC and oil price changes, *D P T Young*, 16.2, 107–114
Oil production and macroeconomic adjustment in the Indonesian economy, *Charles Harvie and Atifah Thaha*, 16.4, 253–270
Productivity changes in the Gas and Fuel Corporation of Victoria, *Ahmed Rushdi*, 16.1, 36–45
Quasi-experimental taxation elasticities of US gasoline demand, *Rajeev K Goel*, 16.2, 133–137
Unbiasedness and time varying risk premia in the crude oil futures market, *Imad A Moosa and Nabeel E Al-Loughani*, 16.2, 99–105

Public utility regulatory economics

Investment in competitive electricity: scope for incentive contracts, *A Kumar David and Kwok-po Wong*, 16.1, 27–35
On the unprofitability of utility demand-side conservation programmes, *Franz Wirl*, 16.1, 46–253
Productivity changes in the Gas and Fuel Corporation of Victoria, *Ahmed Rushdi*, 16.1, 236–245
